Integrations: Razorpay, Stripe, Google OAuth, Socket.io, Nodemailer, Tally Prime

Content & Marketing: Script Writing, Video Making (Remotion, Claude, CapCut, Canva), SEO and Online Ads (learning)

Tools & Deployment: Git, GitHub, Postman, Vercel, Puppeteer

Languages: English, Hindi, Gujarati

Experience

Project Manager **Oct 2026 – Present**

Zyden IT Solutions *Gandhinagar, India*

- Managing several projects at once, including TechCure, the ERP Zyden makes for pharma manufacturers.
- Researching what each new feature needs, writing a clear plan, and handing it to the developers.
- Testing new features and updates before release, and reporting bugs with clear steps to repeat them.
- Coming up with ideas for product videos and reels, then writing and making them with Claude and Remotion.
- Learning SEO on live work for AM Hygiene, and running online ad campaigns.

Senior Developer **Mar 2026 – Sep 2026**

Zyden IT Solutions *Gandhinagar, India*

- Worked on the hardest parts of TechCure: production, quality control, BMR reports, accounts and Tally sync.

Full Stack Developer **Oct 2025 – Feb 2026**

Zyden IT Solutions *Gandhinagar, India*

- Built 99 Spices from scratch: food orders with live tracking, table booking, pre-orders and an admin panel.
- Added profit and loss dashboards to the admin panels of 99 Spices, Fortune Organics and House of Fashion.
- Joined TechCure on day one, studied how pharma companies work, and helped build the masters and inventory.

Full Stack Developer Intern **Apr 2025 – Sep 2025**

Zyden IT Solutions *Gandhinagar, India*

- Learned the MERN stack on real client work, and helped ship online shops, admin panels and their APIs.

Projects

TechCure **2025 – Present**

Zyden IT Solutions' main product · React.js · Node.js · Express.js · MongoDB · Puppeteer · Tally Prime

- ERP software for pharma, nutraceutical and ayurvedic manufacturers, from buying raw material to selling.
- Worked on the complete **Masters** (products, raw and packing materials, formulas, parties, HSN, TDS) and helped build **Inventory and Purchase**: purchase orders, goods receipt, stock adjustment, and a movement history for every batch.
- Helped build **Production**, from planning that reserves stock and flags missing material, through material issue, to batch clearing, and **Quality Control**, which keeps new stock blocked until its test report is approved.
- Helped build **Accounts** on double entry, so the trial balance and balance sheet always match, plus the **BMR report** and a one-click **Tally Prime sync** that never creates duplicates.
- Plan, script and make the **TechCure video series** with Claude and Remotion, like Episode 2 "Paracetamol ka rate?"

House of Fashion **2025**

Fashion e-commerce · Next.js · React.js · Node.js · Express.js · MongoDB · Razorpay · houseoffashion.co.in

- Worked on all three parts: the online shop, the admin panel and the API behind both, including the screen design.
- Helped build the catalogue, where every size and colour keeps its own stock, plus wishlist, ratings and coupons.
- Worked on self-service cancel, return and replace, Google sign-in with OTP, Razorpay and the admin dashboard.

Other Live Websites **2025 – 2026**

- **Fortune Organics** – fortuneorganics.in | **Aerovvi Travel** – aerovvitravel.com | **AM Hygiene** – amhygiene.co.in

Education

B.E. in Information Technology **2022 – 2026**

L. D. College of Engineering, Ahmedabad *CGPA: 8.84 / 10*

Higher Secondary Certificate **2021 – 2022**

M. M. Vasa Primary and High School, Ahmedabad *Percentage: 80.76%*
