SUMMARY

Full stack developer with two and a half years of production experience on React, Next.js, Node.js, Express and MongoDB. I like working across a whole feature: the database, the API, and the screen that uses it. Six of those months went into a pharmaceutical manufacturing ERP. I design directly in Tailwind and CSS as I build, so what gets reviewed is close to what ships.

SKILLS

Languages: JavaScript (ES6+), HTML, CSS, C

Frontend: React.js, Next.js, Tailwind CSS, SCSS, Responsive UI, Design in code

Backend: Node.js, Express.js, REST APIs, JWT authentication, Middleware

Database: MongoDB, Mongoose, MySQL, Schema design, Aggregation

Integrations & tools: Razorpay, Stripe, Google OAuth, Socket.io, Nodemailer, Tally Prime, Git, GitHub, Postman, Vercel, Puppeteer

Media: CapCut, Canva, Filmora

EXPERIENCE

Full Stack Developer

Oct 2025 – Aug 2026

Zyden IT Solutions

Gandhinagar, India

- Worked on full-stack applications end to end: database schema, REST APIs and the finished responsive interface.
- Helped build several large ERP modules in an industry new to me, researching the domain before designing the data models and screens, and wrote logic where correctness matters: balanced ledgers, batch-level stock movement, and quality checks that block unusable material.
- Built a one-click sync copying accounting entries into Tally Prime, generated PDF reports from templates, added dashboards to admin panels, and fixed issues reported by real users.

Full Stack Developer Intern

Apr 2025 – Sep 2025

Zyden IT Solutions

Gandhinagar, India

- Learned the full JavaScript stack on live client work: React, Next.js, Tailwind, Node.js, Express, MongoDB and MySQL, and helped deliver storefronts, admin panels and their APIs, covering catalogue, cart, payments, authentication, delivery tracking and order management, designing the interfaces too.
- Worked to client deadlines and picked up debugging, testing, code review and Git workflow in a team.

PROJECTS

TechCure

2025 – 2026

Pharmaceutical Manufacturing ERP · React.js · Node.js · Express.js · MongoDB · Puppeteer · Tally Prime

- Worked on the complete **Masters** area: products, items, raw and packing materials, formulas, parties, employees, HSN, TDS and QC monograms.
- Helped build **Inventory and Purchase** (supplier enquiries, purchase orders, goods receipt, stock adjustment, store-location tracking with a movement trail behind every batch) and the **Production** chain, from planning that reserves stock for earlier-dated plans and flags shortfall materials, through raw-material issue, post-production, packing-material issue and batch clearing.
- Contributed to **Quality Control**, where new stock stays blocked until its test report is approved and approval frees it automatically, and helped build the **Accounts** module on a double-entry engine, so the trial balance and balance sheet always reconcile.
- Took part in **batch-level stock and expiry tracking**, a worklist of unusable stock, the **BMR report**, and the one-click **Tally Prime sync** that never creates duplicates.

House of Fashion

2025

Fashion e-commerce · Next.js · React.js · Node.js · Express.js · MongoDB · Razorpay · houseoffashion.co.in

- Worked across all three applications: the customer storefront, the admin panel and the API behind them, helping with the interface design as well.
- Helped build the catalogue, where each size-and-colour combination keeps its own stock, plus wishlist, ratings, discount coupons and delivery-charge rules.
- Worked on staged order tracking with self-service cancel, return and replace (a refund record kept against each), Google sign-in with email OTP, Razorpay checkout, and the admin dashboard with sales charts, image cropping, manual invoicing and credit notes.

Other live websites

2025 – 2026

- **Fortune Organics** · **Aerovvi Travel** · **AM Hygiene** — live sites I designed and built; all five projects above are shown on my [portfolio](#).

EDUCATION

B.E. in Information Technology

2022 – 2026

L. D. College of Engineering, Ahmedabad

CGPA: 8.84 / 10

Higher Secondary Certificate

2021 – 2022

M. M. Vasa Primary and High School, Ahmedabad

Percentage: 80.76%

LANGUAGES

English · Hindi · Gujarati
